We are NOT a Collections Agency

*You delivered what you said you
would - You want to be paid as they
promised you. The problem is that
once they have what they wanted - it
then becomes a matter of THEIR
VIEW of what or if payment will be
made. Too often they believe they are
in control and they act accordingly.
They know non-payment costs you,
and count on this: That you'll
eventually just give up the chase.*
